

小站机经命中播报

2015-3-28

3月28日小站机经回顾：

<http://bbs.zhan.com/thread-93046-1-1.html>

YOUNG 老师寄语

3月28日的托福考试仍旧是北美新题的天下。小站预测机经口语命中3题，写作命中1题，领跑同业其他机经。下面我们分析一下本次考试组成和考试规律。

考题构成及回忆 【本场考试-真题回忆解析】 <http://bbs.zhan.com/thread-76111-1-1.html>

| 2015年3月28日：口语 Speaking S1-S6 | |
|--|--|
| S1 = 130913 NA | S2 = 110108 CN |
| Which of the following would you prefer to give the money to: An environmental group, The local library, An animal rescue center | Do you agree or disagree with the following statement? It is important to have some sort of work experience, such as a part-time job, before attending university. |
| S3 = 111020 CN | S4 = 130302 NA |
| Proposal: It's better to start a magazine where good papers are published, as students can learn from the organization and content of good paper. Listening: agrees R1: she is a psychology student who's to graduate. If her paper is published, she will stand out and it brings benefit to her. R2: she sometimes feels difficult to organize her paper and it will help her in organization and resourcing. | Consistency bias: When people are asked about their previous opinion, they tend to response with their current idea. Listening: the brother of the professor is a mathematics teacher in a university, and he doesn't like his principal, so he always reports negatively. However, the principal make some good policies, and brought some new computer to the students. So he change his idea and thinks the principal a good leader. |
| S5 = 130223 NA | S6 = 130412 NA |
| P: it is raining, and the girl forgets to bring her coat and umbrella, but she has to go back home to finish her history paper. S1: to wait for her roommate, but her roommate has classes the afternoon, so she will go home late and stay up for her paper. S2: to call a taxi, but it will cost her a lot, about 15 dollars. | Two ways for animal to preserve food. 1. They will dry out the food before they store it. For example, squirrels dry the mushroom on the branch before storage. 2. They will make food cool. For example, beavers bring the leaves and branches under the water to make the food cold. |
| 2015年3月28日：写作 Writing W1-W2 | |
| W1 = 140208 NA | W2 = 100117 CN |
| The reason why the British ship, Mary Rose sank. 阅读材料: 1) the door of gunport was not closed properly. 2) sailors dislikeed the captain and fail to follow the order 3) French officer report the Mary was sunk by their warship. 听力材料: 1) The cannonballs is still in the gun 2) Crewmembers were all well-trained and professional 3) French officer's claim is on strong political motives. | Do you agree or disagree with the following statement? It is better to finish a project completely and then begin another project than to work on two or more projects at the same time. Use specific reasons and examples to support your answer. |

小站辉煌命中记录

2013 年 6 月开始，TPO 小站机经重新起航，进行机经改革，紧跟 ETS 出题变化，力求给一线奋战的托友们带来最准确的机经预测。小站机经在每次均有命中的基础上，多次出现全部命中的记录（详见下表）。从 2013 年 10 月开始，我们逐步推广带答案版的机经分析，更符合众多托友的需求。2014 年 3 月，我们隆重推出了 SUPER 12 超级小范围预测和 **SUPER 66** 黄金范围预测，对所有机经真题进行了最严密的矫正还原，并据此编写了大量具有高端学术价值的答题思路和高分答案，一举超越了其它各家机经。最近的一次重大升级发生在 2015 年 1 月，我们根据最新考试趋势将 SUPER 12 改成了 **SUPER 23** 超级小范围预测，更加契合考生需求。

小站总结本次出题规律

落入范围

本次考试口语部分基本是由 13 年北美新题和 10 年、11 年的大陆题组成，写作部分由 10 年大陆题和 14 年北美题组成。

重合分析

大量北美题的出现为考试预测增加了很多难度，特别是 13 年和 14 年北美题的高频出现，是需要警惕的，特别是 14 年的北美题已经登上考场，后续小站会继续紧跟大陆考试趋势。

考题特点

从考题规律来看：首先托福口语继续之前的大拼盘规律，北美新题占多数，北美新题年份集中在 13 年。其次写作是大陆和北美题的组合，具体拼盘 10 年大陆题和 14 年北美题，这说明考试拼盘复杂程度加大，范围跨度加大，也表明了 ETS 反机经预测手法升级，但是小站仍然会紧跟考试规律，做出最合理可靠的预测机经。

命中率解析

2014 年大陆地区已经有近三十次托福考试，基本大规律已经形成，虽然大乱拼继续占据主导地位，但是仍然有迹可循。目前主要呈现规律就是：不出新题；各个科目都被拆分来；有多组套题组合拆分来考；全部题库范围为 08~13 年大陆、北美题目；口语方面会同时出现多套线索，大概三四次考试是同一组套题组合来考，但是几次考试时间间隔可能是一个月，也可能间隔好几个月；一场考试两套题的概率增大，本年度已经出现 5 次考试考到两套题情况；口语写作全套重复概率很小；写作方面题源的独立或者综合部分一旦在考试中出现，剩余部分也将在后续考试中出现，时间跨度不定。

经历前一段时间的考情改动，近期命中率开始有所回升，规律相对比较稳定，尤其是口语部分，相信接下来很有可能继续用到之前的线索。

对于复杂的考情，小站机经将会紧跟考试信息，适时做一些内容方面调整，更加契合考试需求，希望考生们随时关注最新预测机经的动态。同时还可以看看以往的考情分析，多多关注一下近期考题情况。相信接下来的考试，还是会有好消息的。

小站 super66 黄金范围预测机经提前两周发布，旨在让考生提前复习到机经，希望大家结合小站给出的独家答案，好好的利用起来，早早的用来做充分的练习。

最后要说的是，机经在于锦上添花，希望不管机经命中与否，同学们都能保持平常心考，好好准备和练习，沉着应对托福考试。要知道，机经并不只有预测作用，本身就是很好的练习素材，即使没中，你也比没有看机经的同学准备的更加充分，所以一定要相信自己。同时考生们可以关注小站论坛的公开课版块，参与到最新的公开课中来。
