“追昔式” 的表达
Traditionally,
In the past,
Past surveys have shown that...

(1) At present, Internet has become an indispensable item in our daily life. Indeed, it has greatly elevated our efficiency in work, study and other affairs.

(2) Nowadays, there is an increasing trend in globalization in our world. Indeed, it is common to see Chinese teenagers wearing the new arrival Nike shoes walking in the streets, talking about the latest Hollywood blockbusters.

(3) Nowadays, supermarkets not only make money for their owners, but also bring them some problems, among which the theft of their goods is one of the most annoying. To solve this problem, surveillance cameras have been applied.

(4) A recent survey indicates young people in their teens spend the vast majority of their spare time watching TV rather than talking with other family members. This phenomenon might bring quite a few negative effects, among which the unfavorable influence on the family relationship could be one of the most remarkable.

(5) Recently, high school students have had quite a few problems concerning not only academic matters, but also psychological issues. To solve these problems, more courses promoting the healthy psychological growth of students have been proposed.
