“强调重要性式”

“强调重要性”的表达

It is essential/vital to maintain a good health.

Nothing is more important than to maintain a good health.

It is a critical point to...

Nothing can change our life as profoundly and swiftly as ... has.

(1) Nothing can be more important for students than for them to get to know as much as possible about the world outside the campus. One reason is that knowledge without experience is like trying walking on one leg. Another reason is that maintaining contact with the world outside the campus helps the student become mature and responsible.

(2) Education plays a very important role in a child's growth. It is regarded as essential to improving their basic skills and increasing their knowledge. People, especially parents, are interested in what factors can be used to motivate children to achieve better performance in school or university.
