

托福口语备考：考前练习题（2）

1. You will now be asked a question about a familiar topic. After you hear the question, you will have 15 seconds to prepare your response and 45 seconds to speak.

Describe a character in a book who influenced you a lot, and explain in what way did this character influence you. Use details and examples in your response.

Preparation Time: 15 Seconds

Response Time: 45 Seconds

2. You will now be asked a question about a familiar topic. After you hear the question, you will have 15 seconds to prepare your response and 45 seconds to speak.

Do you agree or disagree with the following statement:

It is important for families to have dinner together once in a while.

Use specific reasons and examples to support your position.

Preparation Time: 15 Seconds

Response Time: 45 Seconds

3. You will now read a short passage and then listen to a talk on the same topic. You will then be asked a question about them. After you hear the question, you will have 30 seconds to prepare your response and 60 seconds to speak.

Reading Time: 45 Seconds

Proposal from a Student

Students enrolled at the Newton Technical Institute can borrow as many books as they need. But I am pleased to propose that the volume of books students check out each time should not be more than ten. By limiting the number of books in circulation, students can focus better on the materials and acquire more information and details they need while doing research. Furthermore, the regulation will reduce the possibility of the volumes lost after being checked out and kept in students' hands for a long period of time before the due date. I look forward to seeing our school bring the proposal into effect.

Now listen to a conversation between two students.

The woman expresses her opinion of the student's proposal to limit the number of books checked out each time from the library. State her opinion and explain the reasons she gives for holding that opinion.

Preparation Time: 30 Seconds

Response Time: 60 Seconds

4. You will now read a short passage and then listen to a talk on the same topic.

You will then be asked a question about them. After you hear the question, you will have 30 seconds to prepare your response and 60 seconds to speak.

Reading Time: 45 Seconds

Vertical Migration

Vertical migration is a pattern of movement that some aquatic species vertically travel through water areas such as lakes or oceans every day. Organisms usually move up to the water surface at night and return to the bottom of the ocean or lakes during the day. There may be several factors causing these species to move up and down through a water body, including light, temperature of the water, gravity, oxygen levels, and predator-prey interaction.

Now listen to a lecture on this subject.

The professor gives an example of squids in the lecture. Explain how the example demonstrates the concept of vertical migration.

Preparation Time: 30 Seconds

Response Time: 60 Seconds

5. You will now listen to a conversation. You will then be asked a question about it.

After you hear the question, you will have 20 seconds to prepare your response and 60 seconds to speak.

The speaking discusses two possible solutions to the woman's problem. Describe the problem and the two solutions. Then state which of the two solutions you prefer and explain why.

Preparation Time: 20 Seconds

Response Time: 60 Seconds

6. You will now listen to a conversation. You will then be asked a question about it.

After you hear the question, you will have 20 seconds to prepare your response and 60 seconds to speak.

Using points and examples from the talk, explain the two different methods ancient human used to keep fire from burning out.

Preparation Time: 20 Seconds

Response Time: 60 Seconds
