第三段没有变化的部分。

第四段发生变化的部分。

地图题就是这么简单！你学会了吗？

The map describes how a village named Strokeford developed from 1930 to 2010.

It is clear that the sharpest difference is that large stretches of farmland in 1930 were replaced by houses in 2010. It is also evident that the Gardens in 1930 disappeared and a retirement home was erected in that place.

River Stoke which lies to the east of the village and the Bridge, which is located to the north of the village, remained the same throughout the four score years. A road which cuts through the village and which is connected to the bridge is another facility which remained largely unchanged.

Two shops, one big and another small, situated along the road vanished and instead some new homes were built along a newly-built side road. The primary school expanded, with two large houses lying by its side. The retirement home in 2010 was on the original site of the gardens.

地图描述了一个叫 Strokeford 的村庄从 1930 年到 2010 年的发展。

地图很清晰的显示了最大的变化是 1930 年的大片农田变成了 2010 年的住宅。同样明显变化是 1930 年的花园在 2010 年变成了疗养院。

位于村庄东面的 stoke 河和位于村庄北面的大桥在 80 年间都没有变化。贯穿小镇的公路，与桥相连，是另一个仍然没有变化的设施。

之前在路边的一大一小两个商店消失了，取代它们的是一些新的住宅，沿着新建小路建成。小学面积扩大了，边上建起了两间大教室。2010 年公园原址建起了一个养老院。
